

NEW RELEASE

version

PSIfusion 3.0

Distributed Indexing and QA for Teams. Reimagined.

A One-Teampower Engine.

With the launch of PSIGEN's next generation of PSIfusion, indexing and quality assurance is more robust and easier than ever.

Built with native HTML5 under the hood, our state-of-the-art solution extends distributed teams' ability to work from anywhere, and offers dramatically improved accessibility support over the previous version.

Available from Anywhere.

HTML5

CSS3

Javascript

- ◆ Native HTML5 provides support for most current browsers across just about any device.
- ◆ New design allows management to assess, address, and reconfigure workloads on the fly.
- ◆ Enhanced access from mobile devices means you can work how you want and when you want.

Work the way you want with PSIfusion
